Soil Microbes Workshop

Do the answers to these soil microbial questions interest you?

- Microbial bioindicators (fungi, nematodes and bacteria) – can we identify, measure and ‘interpret’ their role in soil health?
- Can you become wealthy by understanding the role of fungal organisms (and other microbial organisms) and soil health?
- What influence do common soil practices have on soil microbial organisms (mainly fungal), diseases and soil health?

If so, you should attend this workshop to be delivered by scientists from the BioSciences Division and Catchment and Agricultural Services, Department of Primary Industries Victoria.

Speakers include:

Dr Ian Porter, Principal Plant Pathologist

Dr Jacky Edwards, Statewide Leader Plant Pathology

Dr Leila Nambiar, Senior Nematologist

Mr Ricky James, Grapecheque Facilitator

Venue: Stanley Hotel, Stanley

Cost: \$20.00

Date: Thursday, May 8, 2008

Time: 2.00pm - 5.00pm

RSVP: Contact Brendan White on 1300 468233
by Friday 2nd May, 2008

This workshop is brought to you by GOTAFE and Beechworth Vignerons Association and sponsored by The National Landcare Program.
